

Previous MMP1 Editor for **Windows version information**

V1.1.0

New Functions

- The “SPL Level” value can be locked to prevent unintended change.
- The EQ parameters of the Speaker Management can be controlled by the graph and on-screen knobs.
- Some parameters can be set by entering the number directly.
- The meters of the Main Monitor Out can be rearranged.

V1.0.1

Fixed Bugs

- Fixed some minor bugs.

V1.0.0

Release version
